

ACE publishes the [Journal of Applied Communications](#) (JAC), a quarterly peer-reviewed professional journal.

Signals was ACE's newsletter from 1990 to 2010. It was replaced in 2010 by Web-based electronic communications. Issues published since 1994 are available in the Signals Archive.

The ACE Archives was compiled by life member William E. Carnahan. This collection of ACE records provides a comprehensive documentation of the organization's history.
